## *Group Discussion*

For each of the passages assigned to you, do the following with your group.

1. **Read** the passage together and spend a few minutes (not too long) **discussing** its symbolism. Identify **what the water represents** in the context of the passage and **what its significance is** for the people of God.
2. For each passage, **write** the following on **one of the blue pieces of paper** you have been given (each passage should have a separate paper). Write large enough that it can be easily read by someone standing beside the paper, with the paper on the ground.

**Write in black:** 1) what the water represents and 2) the passage reference

**Write in blue:** key words or phrases from the passage (or closely tied to the wording of the passage) about the water that relate to its significance for the people of God.

After you have finished the posters, discuss the following:

1. What were the common themes among the passages you looked at?
2. In what ways do these passages build on one another?
3. What does it mean to “come and drink” from the water that God offers in these passages
